

Partners

- If you are working in a pair BOTH of you must register individually, you need a different email address for each participant
- Only **ONE** student creates the project in ProjectBoard
- Once that student shares the project, both of you will be able to view and edit the project
- The student who created the project must do the following to share it with their partner:

1. To the left of the red square button, toggle to public (it won't be available to the general public just people you invite)
2. There is a red, round button with a plus on it > click it

3. The screen below comes up and there will be a blank line > add your partners' email
the same one they used to register
4. Make sure the box says **CO OWNER**
5. Bottom right click> red square save

6. Once the project is shared both of you log into your own separate accounts and link the project. Make sure the select button is clicked to 'blue'

ProjectBoard Information

| Projects | |
|--------------------------|--|
| PROJECT NAME | |
| Butterflies and Milkweed | <div style="text-align: right;">SELECT LINK</div> <div style="text-align: right;"><input type="radio"/> <input checked="" type="radio"/></div> |
